

# Industrial Inspection Services

OFFERING SPECIALIZED NON-DESTRUCTIVE TESTING SERVICES

The rise in manufacturing activities amongst the developing and the developed nations coupled with the technological innovations have led to the development of advanced non-destructive testing (NDT) processes with improved fault detection and safety. Furthermore, there has been an increase in the awareness amongst the manufacturers regarding the use of NDT, thus improving the penetration of NDT across industries in the coming years. Moreover, manufacturers are now looking for a one-stop for all the solutions to carry out various testing and treatments under one roof. Furthermore, with the onset of the digital age, manufacturers expect service providers to work efficiently to enable automation and quick delivery.

Understanding the current changing market dynamics, Industrial Inspection Services Pvt. Ltd. (IISPL) has uniquely positioned itself as an NDT, Heat treatment and Inspection agency. The company is an NDT Level -III service provider with NDT Training institute to carry out projects for a wide range of industries that includes refineries, fertilizers, petrochemical complexes, sponge iron projects, chemical plants, cement plants, cross country pipelines, fabrication shops, to name a few. They are constantly striding forward to bring in the needed innovation in NDT and Heat Treatment service deliverability by leveraging today's advanced technologies.

**For meeting the needs of today's complex material, geometrics and safety requirements, we continuously upgrade our infrastructure to achieve the quality and reliability of NDT services**

"For meeting the needs of today's complex material, geometrics and safety requirements, we continuously upgrade our infrastructure to achieve the quality and reliability of NDT services; a prime importance to us and our customers", highlights Rajesh Gandhi, Promoter & managing director of the company.

"To talk about the few points that give us an edge over our competitors is that we are the largest PT & MPT service provider in India. We also have one of the largest teams for

Rajesh Gandhi,  
Promoter & MD

providing ultrasonic services in offshore platform, casting, welding and raw material. Till date, we have participated in more than 50 ASME Stamp as NDE L-II for various clients. We have carried out local stress relieving of the largest C/S joint in India by electrical resistance heating", he adds.

## Ensuring Quality and Reliability

IISPL team of 180 technically-adept people is dedicated and experienced professionals qualified in NDT Level-I, II & III. They are led by Rajesh, who is an ASNT Level-III expert. And due to their competency in the field, IISPL is currently associated with some of the biggest names in the market today, including L&T Ltd, Hazira, L&T MHPS Boiler Ltd., L&T Hydrocarbon Ltd., L&T Special Steel Casting, among others. They are well versed when it comes to providing PT, MT, UT, VT and RTFI services to its niche clients across varied industries such as fabrication, heavy engineering, Refinery, Petrochemical, Defence, Nuclear and others.

Industrial Inspection Services Pvt. Ltd. is also well known for its consultancy, providing - NDE L-III services for American Society of Mechanical Engineers (ASME) approval, which is mostly opted by pressure vessel manufacturers involved in exports. The combined knowledge and experience of the promoter and team make IISPL a unique organization in the market today. "We are continuously investing in new equipment and manpower to further solidify our position as the market leader. In the next five years, we would like to cement our leadership position and expand our horizon internationally", concludes Rajesh. [ln](#)
